- Dedicated Professionals for designing and ongoing maintenance
- Technical Expertise on open source tools thereby giving more agility and performance with a cost effective mode
- On time delivery and up-to-date regular maintenance ensured that the info on the portal is latest
- 24/7 support services
- Best Project Management Practices

The client was able to fulfill its end objectives by using the application

SOLUTION

By using the portal designed by Interfinet the client was able to showcase his religious information and services offerings. The portal made a direct impact on transferring costly IT services from Europe to India for minimizing escalating IT costs. Thus by using the portal the client was able to concentrate more on his religious activities. The portal helped the client to promote his religious messages to a greater audience. The client was relieved of his daily tedious data updation work and Interfinet ensured that the server downtime remains the least. The client was able to focus more on the generating new ideas for preaching more information. News, events and other information releases can now be managed in a better concise manner by using the portal.
